Wow, well I hope I have better luck. I hope that eventually yours will come through too. These do seem to be to awesome books to have, if they will come through.

I do not know where you are from. I just received an email saying that they only send the book to the USA and Canada at this time, hope this info might be helpful to someone.

I have ordered my book, have a tracking number and it says the order was received at my local post office but local post office don't have my book. Told me to notify the seller.

Yep, me too. Was told if I didn't put an address, which I did, that they were sent as e-book...I've got nothing.
